

How to Print Map from Website:

To print the map from our website you have to click the **Print** icon at the top of the page. This will open a pop-up, click to allow it.

The screenshot shows the Milam Appraisal District Interactive Map interface. At the top, there is a search bar and a 'Print' icon. A 'Basemap Selector' widget is visible on the left. A 'Parcel Data Search Widget' is open, displaying details for a selected parcel. A 'Map Info Window' is also open, showing the same details. At the bottom, there is a 'Search Results' table and a footer with 'Export to CSV...', 'Export to Txt...', 'Export...', and 'Print' buttons. Red arrows point to the 'Print' icon at the top, the 'Basemap Selector' widget, the 'Parcel Data Search Widget', the 'Map Info Window', and the 'Export' and 'Print' buttons at the bottom.

The **Export** and **Print** button at the bottom of the page is associated with the **Search Results** box, therefore, *if you click these you will only get the information in the Search Results box and not the Map.*

The **Print button for the **Search Results** is not working through **Google Chrome** at this moment and the **Search Results** do not print on one page, even if you change the paper size.*
